| Terrior | The Doctorberg is the prime vineyard of Dr. Pauly-Bergweiler. It is only 4 acres in size and it is held to 100% in the hands of the Pauly-Family. The stony blue-grey clay slate is a residual soil having a very good heat-storing potential, which makes it possible to produce quality grapes for high-end wines. The high proportion of blue slate gives the wine a high content of minerals and finesse. Because of the partly more than 70year old vines the yield is very low (less than 60hl/ha). |
| Description | The Doctorberg Riesling Auslese is a vivacious wine, bursting with aromas and flavors of honey, citrus and apricot, extremely concentrated and focused. A heavier style of Riesling with great aging potential. |
| Suggestion | Leave it for another 30+ years or drink it now as a classical desert wine. Works great with blue cheese. |
| Quality level | Auslese |
| Grape varietal | 100 % Riesling |

We say:

We love the Auslese from the Doctorberg. It's one of the most dense wines in our portfolio. Creamy and lush – can't wait to open it in 20 years!
